PAVAN NADIMPALLI

SOFTWARE ENGINEER | AI & DATA APPLICATIONS | FULL-STACK DEVELOPMENT

Delray Beach, FL • nadimpallipavanms@gmail.com

Portfolio: pavannadimpalli.com | GitHub: nadimpallipavan | LinkedIn: pavan-nadimpalli

PROFESSIONAL SUMMARY

Software Engineer with an M.S. in Data Science (4.0 GPA) and experience delivering Python backend services, React/Node.js applications, REST APIs, analytics-driven dashboards, and cloud-hosted systems. Applies software engineering, data analysis, and machine learning foundations to real business workflows; develops data-driven applications and production-oriented web platforms.

TECHNICAL SKILLS

Programming & Data: Python, JavaScript (ES6+), TypeScript, Java, SQL, C++, Pandas, NumPy, data analysis, visualization

AI / Machine Learning: TensorFlow, Keras, Ollama, LLM APIs, prompt engineering, OpenCV, Matplotlib, Power BI

Frontend & Backend: React, Next.js, HTML5, CSS3, Node.js, Express, FastAPI, Django, Flask, Spring Boot, REST APIs

Databases & Cloud: PostgreSQL, MySQL, MongoDB, Supabase, Redis, Firebase, AWS (EC2, S3, RDS), GCP, Docker, Vercel

Engineering Practices: System design, modular architecture, unit/integration testing concepts, CI/CD workflows, Git/GitHub PRs, debugging, code review, performance optimization, API security fundamentals, Linux, Postman

PROFESSIONAL EXPERIENCE

A Fresh Leaf LLC | Software Engineer (Full-Stack & Data Applications) **Oct 2026 – Present | United States**

React, Node.js, Express, MongoDB, REST APIs, GitHub, cPanel / VPS

- Design and maintain modular React/Node.js application components, REST API integrations, and data models; manage Git branches, pull requests, code review, and QA-driven releases.
- Built Suncoast TV scoreboard views for technician rankings, sales metrics, and goals; debugged data-display logic and optimized responsive layouts for TV screens.
- Maintain Kingston K9 adoption, donation, and media workflows; troubleshoot defects, validate end-to-end integrations, and improve page performance and reliability.
- Contribute to CCG system design (in progress): structured inventory schemas, authenticated product workflows, image uploads, and owner-review authorization states.

A Fresh Leaf LLC | Full-Stack & Data Science Intern **Jan 2025 – Apr 2026 | United States**

JavaScript, React, Node.js, Python, SEO Analytics, Google Search Console

- Developed reusable frontend/backend features and API integrations; tested user journeys and integration behavior, debugged defects, and improved responsive performance.
- Analyzed Search Console and website-performance data to identify indexing, SEO, and loading issues; implemented and verified data-informed fixes.

V Build Networks | Software Engineer **Apr 2023 – Jul 2024 | India**

Python, Django, Flask, Cisco APIs, AWS EC2 / RDS / S3, Redis, Nginx, Twilio

- Designed and maintained modular Python/Django/Flask services for incident workflows and reporting; debugged backend logic, validated API integrations, and reviewed changes.
- Integrated Cisco monitoring APIs and supported AWS EC2/RDS/S3, Redis caching, Nginx, and Twilio alerts; investigated reliability and performance issues.

SELECTED TECHNICAL PROJECTS

AI Roleplay Trainer: Team-based Claude/TypeScript/React/Supabase design for adaptive ACA prospect simulations, hidden evaluation, scoring, and coaching.

AthenaText: Multi-tenant SMS lead qualification and calling platform architecture using FastAPI, Next.js, PostgreSQL, Redis, and Twilio.

SmartView AI: TensorFlow recommendation engine and encrypted facial-recognition features in a React/Rails streaming app deployed on AWS.

AI-Powered Discord Chatbot: Python/Ollama assistant combining rule-based and generative responses for programming education.

Production Schedule Reflow Engine: Team TypeScript project applying topological sorting and shift-aware constraints to reschedule manufacturing orders.

Connect Carpooling: Ride coordination with Google Maps fare calculation, real-time GPS functionality, and Firebase push notifications.

WEBSITES & APPLICATIONS

A Fresh Leaf | Kingston K9 | GoMunchz | Danteswari Daily Needs | SaltwaterCam | HiLoPros | Portfolio (self-built) | Royal Standard Pub | Suncoast

EDUCATION

Florida Atlantic University — M.S. Data Science, GPA 4.0 (May 2026) | B.V. Raju College — B.Tech, ECE (Apr 2024)
